

Uneven Chinese Coins

Quilt Size is 59 x 74

Coins Strip width is 5 inches (5.5 inches with seam allowances)

Sashing Strip width is 2 inches (2.5 inches with seam allowances)

Length of vertical rows is approximately 65 inches (you can vary this to increase or decrease your quilt length).

Border is cut 4.5 inches

Quilt notes

- See this site for information on making the Chinese Coins
<http://heartstringsquiltproject.blogspot.com/2007/03/chinese-coins.html>
- I start with 7 rows of coins that are 65 inches long. Two of your rows will be cut to create the 4 narrower rows of coins. Take one 5.5 inch row and cut a 2 inch row from it; that leaves you with a 3.5 inch row. Take a second 5.5 inch row and do the same.
- The quilt is assembled in the following order **with a sashing strip sewn between each strip**. Border is sewn on after all the strips are sewn together. Refer to the quilt picture as needed.
 - ✧ 5.5 inch row
 - ✧ 2 inch row
 - ✧ 5.5 inch row
 - ✧ 3.5 inch row
 - ✧ 5.5 inch row
 - ✧ 2 inch row
 - ✧ 5.5 inch row
 - ✧ 3.5 inch row
 - ✧ 5.5 inch row
