L Blocks - Make 54

Charm squares are framed on two sides. My squares measured 5 inches and each block takes one strip cut 2 x 5 inches and one strip cut 2 x 6.5 inches.

Press in the direction of the arrows toward the square

Half of my fabrics were directional and I needed to place them on the design wall before adding the frames to know which side of the block to frame. If your fabrics are NOT directional, then you will make all your blocks as shown above and rotate them as needed.

Assemble the blocks, rotating them as shown in the drawing to the right. Add borders.

Inner border is cut 2 inches

Outer border and cornerstones are cut 6.5 inches.
